School house for the A V school at yedatore

The subscribers of the Endowment Fund (started in connection with the jubilee of 1887) of Rs 2300, agreed to the amount being appropriated for the construction of a school house and to call the building "Sri Chamarajendra School".

In 1896 the above Fund amounted to Rs 2567 7-3 and this amount was deposited in Govt Savings Bank. It has since increased by the accrual of interest. The exact amount at the credit of the Fund is not known.

In January last, the I G L request-
ed Govt sanction for the construction of a new building for the A V school at yedatore, at a cost of Rs 436. The expenditure during the current official year being met from the Fund mentioned above.

The 1st Councillor's orders on this reference were as follows —

"As to the site selected the Senior Surgeon and Sanitary Commissioner may be consulted it is of the greatest

In reply the D. G. stated —

"a reference to him (the Senior Surgeon and Sanitary Commissioner) can only cause a long and inconvenient delay. I submit that as a rule in the case of Taluk school buildings the selection of a site made by me and approved by the Ex Engineer or Deputy Commissioner may be finally sanctioned."

Serial 1805

On this reference the 1802 Councillor has remarked as follows —

"Let me see the standing orders which requires that the Sanitary Commissioner should be consulted of all buildings. I consider a school building a most important one, the

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

No $\frac{6521-2}{299}$ - Bangalore 17th January 1897 1900
with 5 enclosures

From

H. J. BHABHA Esq.,

Inspector General of Education in Mysore

To

The Secretary to the Government of Mysore,
General and Revenue Departments

SIR,

I have the honour to inform you that the necessity for erecting a new building for the Anglo-Vernacular School at Zdatore has been greatly felt for a long time. The school is now held in a rented building which is not suitable for the purposes of the Anglo-Vernacular School. A building with 4 rooms and a hall is required for the higher classes and the new construction is estimated to cost Rs 2,366 according to the plan and estimate forwarded herewith for reference and kind return.

The estimated cost does not include the DPM establishment charges which should be added to the estimate as the self-constructed work has to be done by the agency of the Government.

P.W.D. The Yedatore Jubilee Fund which
amounted to Rs 2567 in 1896 has been
fully given by the subscribers towards the
cost of the school building. This amount
has been in deposit in the Savings Bank
and has increased by the accrual
of interest. The exact amount at the
credit of the fund at present will be
ascertained. The amount of the fund
will more than suffice for expenditure
on the building during the current official
year. A suitable site has been
chosen by me in consultation with the
Executive Engineer and the Deputy Com-
missioner, Mysore. Under these cir-
cumstances I request that Government
may be pleased to sanction the construction
of a new building for the Anglo-Vernacular
School, Yedatore according to the enclosed
design, the amount required for ex-
penditure during the current official year
being paid from the Yedatore Jubilee Fund.
I enclose herewith copies of letters Nos
386 and 1536 from the Deputy Commissioner
of Mysore dated respectively 17th September 1895
and 27th February 1896

From

To

 The Secretary to the Government of Mysore,

Sir

With reference to your docket no 8822 of the 29th ultimo, I have the
Edn 342
 honour to inform you that the site of the
 Jubilee building for the Anglo-Vernacular
 School, Kodatore was chosen by me after
 careful inspection of all available sites
 in the town. At two different visits I
 consulted the Executive Engineer, the Deputy
 Commissioner, the Amildar and the
 Hospital Assistant and they all agreed
 with me in selecting the site which is
 close to the Travellers' Bungalow. Under
 these circumstances I should be glad to

Know if Government still consider a reference to the Sanitary Commissioner about the selection of a site at Zedatore necessary. In the nature of things he can only reply to my reference when he goes to Zedatore on other work and that may not be for a long time to come. A reference to him can only cause a long and inconvenient delay. I submit that as a rule in the case of Taluk School buildings the selection of a site made by me and approved by the Executive Engineer or Deputy Commissioner may be finally sanctioned.

I have the honour to be,
Sir,

Your most obedient servant,
